

air-light, cork-lined glove-
boxes, there are many
rare & local species in
fine condition.

Most of the specimens
have been collected in
the Bournemouth district &
the New Forest.

If you would favour
me with a reply I should
be pleased to forward a
case or two on approval
for your inspection &
also give full particulars.

Apologising for troubling
you & awaiting the favour
of a reply. I remain, Sir,
Yours respectfully
H. Doid

Dear Sir,

I take the liberty
to bring to your notice
a valuable collection of
British Lepidoptera, I have
for disposal & which is
very suitable for a museum.

It comprises over 3,500
specimens & about 600 species,
all of which are in first
class condition, correctly
named & arranged in
