UNIVERSITY MUSEUM,
OXFORD.

Dear General Pitt Rivers

Very many thanks for the
new volume of excavations, which
has duly arrived. It is a truly
splendid work, & I look forward
to reading its contents, particularly
the parts referring to Bronze Age.
I have for a long time been anxious
to place in His Museum some
portrait of yourself, but I
have so far not come across
any published engraving or
other representation which I could

purchase, so I am writing
in the hopes that you may
have one which you could
spare, & which you would
be kind enough to give to
the Museum. I am anxious
in every way to identify as
fully as possible your name
with the Museum, & I am
sure that some portrait
would greatly further this
object. I am sure that
you will forgive my asking
you.

With kind regards & again
many thanks

Believe me
Yours truly
Henry Palfour
