Ranston,
Blandford.

18. January 1899.

Dear Genl Pitt Rivers,
Your Vol. IV. Reached
me yesterday afternoon -
I beg to return my best thanks
for it. It seems quite worthy
in regard to matter and getting
up. To take its place besides
your former volumes - in the
library of any Archaeologist -
Indeed in regard to fulness

And excellence of illustration, -
especially of Warbarrow - it
seems to excel the former
productions of your pen and
press.

I was glad to hear, a short
time ago, that you were able
to resume your drives to the
Larmer Tree - to superintend
further buildings there; this
must be an agreeable change
to the confinement of the two
Goswys which I was sorry to hear

had been imposed upon you
during the Autumn.

With kind regards to Mrs
Pitt Rivers - Believe me

Yours very truly -
Albion W. Baker
