General Secy Pitt-Rivers, F.R.S. &c. &c.
Rushmore Lodge, Salisbury.

Dear Sir

I am engaged in the preparation of a paper on "Locks"
to be read before the Cambridge Society of Architects and
shall feel very grateful if I may have your permission
to reproduce some of locks shown in the plates of your
lecture in diagrams. I refer more especially to the
Roman lock & keys.

You may be interested to know that in looking over the
Guildhall (London) Museum, I have noticed a sickle key
and one of the primary shape, , but they are
unfortunately labelled, being assigned to the use of juvenile
Romans in trundling their hoops!

I am, Dear Sir,
Your obedient Servant,
Harry W. Chubb.
