Dear General Pitt Rivers

I beg to tender you
my most sincere thanks
for your kindness in
sending me a copy of
your magnificent fourth
volume on "Excavations
in Cranbourne Chase".
I hope to publish a notice

of it in the next number
of the "Reliquary".

The reproductions of
photographs showing
the work in progress
are extremely good
and assist one to
realise the nature of
the excavations and
discoveries illustrated
with such scientific
accuracy on the plans
and sections. The records

kept of ~~so~~ much of the
narrow opening in this
country are so inadequate
that the gain to archaeology
has been very small when
compared with the results
derived from one narrow
methodically explored.
I have not had time yet
to digest the array of
valuable facts you have
collected, but I hope to
do so ere long.

I remain
yrs. vly. truly
J. Romilly Allen.
