Dear General Pitt Rivers

I have been staying in
Florence lately and have been much
interested in the Archaeological Museum
here, which is a remarkable good one.

As there seem to have been many
interesting discoveries made in the
neighbourhood lately, I am sending
you an account of them with

illustrations, which I think you
may like to see.

I wonder whether you have
been making any more discoveries
or excavations lately; — although
I have not been in Wiltshire
for the last two years, I am
as greatly interested in it, as
I was when I lived at Teffont.

Hoping you are quite well,
with kind regards to Mrs Pitt Rivers
I remain
Yours sincerely
W. R. Andrews
