Dear General Pitt Rivers,
Thank you very much
for the four volumes
on your excavations;
I have just finished
reading your account
of War Barrow, the plates
shown are of great value

showing as they do the
right way to open a barrow,
I wish that when such work
is to be done those
who are going to sell about
it would refer to books
like yours, this foot-hunting
business is so much on
the increase.

I look like sale of
books you sent for the
Museum into Salisbury

yesterday, next month
we hope to get out a
printed catalogue of
the library at present
I am taking out all the
duplicates as they only
take up space & are
converted into money will
help us a little.

I am hoping that
Reed will be down
here again before long
