My dear & kind General

Thank you for
your welcome letter
about the 5th Regiment
Newton Vicarage affairs
& your promise that
I might come over with
with my goods which
I shall do by this
class Post. I wish
you could have spoken
more favourably of
yourself, but an excuse

by the firmness of your
hand writing & clear
ness of intellect as shown
in the letter. The Bishop
has no idea of the com-
mon rule of arriving
at a decision on any
subject without hearing
the other side. He told
me last week at the
Synod that he & his
Secretary had considered
the question of disqualification
& he could not alter
his dictum I replied
he must be just to
me get better evidence
than the opinion of his

Secretary. I have now
asked my Secretary to
draw me into the
question & whether there
is an appeal or some
mode of compelling the
man to have evidence on
my side. If I find I
have a case I shall
express to compare to
the common rule of
equity.

I am enclosing a memorial
to the Bishop which I
have drawn up &
hope sending it to the
Bishop I send it to the
