Dear Sir,

I am compiling a
short book on the beauties
& attractions of Bournemouth
where business has kept me for
the last year, together with a short

description of the most
important of the many
interesting places around

It had been my intention
to visit since first arriving
at Bourne mouth your well
known & much talked of pleasure
giving, historical & interesting
estate - somehow circumstances
or a combination of events
prevented me from accomplishing
my desire - - - & now I am
back in town. I do not
expect to be able to do so
this summer & am taking
the great liberty of writing

to you to ask if you would
mind giving me the most
important class of interest to
be seen on the estate - with
any of historical interest that
would be valuable - & also
the best route other than by
road to the locality

Trusting you will pardon
my request

I am dear Sir

Yours faithfully

W. J. Dalby
