Scarning Rectory,

28 August 1899

My dear General Pitt Rivers

Again & thro' all your
most-courteously presented me
with three volumes of your
magnificent work on Excavations
in Dorset & Wilts. - I have
a great desire to get possession
of 4th volume if possible; but
I really had not face to ask
you to bestow a copy upon me
who has no sort of claim upon
your generosity.

Yours truly
Eastwick House Sir Henry

Haworth was here for a few days, and he encouraged me so much to presume upon your former kindness, and added so positively that he was sure you would not look upon it as an impertinence if I wrote to him for 4th volume that I have taken courage to follow his suggestion. -

I may venture to say that there are not many men who

would value mine highly than I should such a gift as this - or who would be more simply grateful to you if you should think me a worthy recipient of it. -

The earlier volumes I am continually looking over & am amazed at the splendid work you have done & for which you have left such a splendid record as these books contain.

Accept my warm thanks for so much that you have taught us & suggested.

I am with profound esteem

Faithfully yours

Augustus Jessup, D.D.
