

willing to suffer any hardship for the
good of the Cause now devote all
their influence to avoid the police
& so having their protestations put
to a practical test. We have had
nothing but fog for the past week
in a few days more than perhaps
this committee upon increased
efficiency of the volunteers will
have done with me. I hope you
are all well at Rushmore &
with kindest regards to Mrs Tilt
Pisus.

Believe me
yours truly
Charles Dalton.

ARMY & NAVY CLUB,
PALE MALL, S.W.

My dear General.

I was so very disappointed
not to be able to come to Rushmore
the other day when Mrs Rivers was
kind enough to ask me. I wanted
to have shown you the enclosed bit
of flint which I picked up in
the year 1844. near the ruins of
Casa grande in the Tilo valley
of New Mexico. when I went to
see the Aztec ruins there that
were first discovered by the Spaniard
Cabeza de Vaca and which I am
told are prehistoric. This bit of

flint appears to me have been
the head of an arrow. but
perhaps after all it is nothing
however it is of any use to you
see it is and that is how
it came into my possession
if you should wish to have
any more specimens of flint
from that part of the world.

A great new Mexican land
owner and millionaire de
Termin by name who is a bit
of an amateur Antiquarian
is now in Paris & will shortly

be in London he would I am
sure send me over some specimens
they are very numerous on his
estate at "Baeha franta" I
hear from Yorkshire that you are
going soon to Thorpe Wopen the
Tumuli at Tanfield where I
have no doubt you will find a great
deal that is most interesting

Lord Salisbury seems
firmer in the saddle now than
he was 6 months ago and Mr
Balfour is slowly but surely
mending matters in Ireland where
all the patriots!!! who a short
time ago were loudly proclaiming they
