Dear Sir

If you ever come to London I should like you to see some old pots I found in Kent. I thought they were Romano British but Mr. Franks (B. Museum) considers them late British. Some is the exact counterpart of what they classify as Roman another has a decided Saxon shape. They all (about 20) contained calcined bones. You being the authority on this class of antiquities I should like your opinion

H. Lewis.

of these age. I hear you
found at Rushmore, a Urn
containing calined Human
bones; I should like to know
the shape of it. yours
^{at Rushmore}
there was a gloriously rich
find. I hope you will excuse
the liberty I take in
writing you — but the
love of antiquities must
be the excuse of your
obedient servant
