TOLLARD ROYAL RECTORY,
SALISBURY.

Dear General Rivers:

'Unpleasantness' pray
do not think of it - you
may assure yourself that
I shall not be the cause
of any - I value your
friendship too much!
At the same time, I send
you an extract from
my letter to me on the
subject of permission, just
to show you that "I have
not erred from the path
of truth in the matter."

TOTAL AND ROYAL FACTORY

SALISBURY

Neale has never asserted
his right, simply acting

game -

Yours truly
Geo. Waterfall -

Neale has repeatedly found
wires on the Common, indeed
my dog was caught in one
on Monday - Neale showed
them to Stumby who
said "he had not placed
them there" - so you see
the people have the
Rabbits as well

Extract of Letter from
General Pitt Rivers

Buckingham

Sept. 24th 88

"It is not from any
personal dislike to your
shooting that I thought
it desirable to mention
the subject to you - "If you
wish I have permission
to shoot Rabbits there
I have no objection to give
permission, but the
question of right affects
more persons than
myself"
