POWERSCOURT,  
ENNISKERRY.  
Co. Wicklow,  
Ireland.

Sir Powerscourt has  
been sent to General Pitt Rivers  
& begs to say that he  
can let him have some  
Japanese deer leather  
on the the antler or  
Wicker at \$10. a  
piece  
He has the same piece as he  
has sold them all to  
other people - It

My General Pitt Rivers  
Aushmore -  
Salisbury.  
Wills.

would be impossible to  
catch them now, as the  
fern in the Park is so  
high & thick - and  
besides, it will be  
much best to catch them  
in the winter, if possible.  
Pitt Rivers would like  
some, because then  
they are just sure to  
be in calf.

If possible Pitt Rivers  
wishes for three,

Lord Pembroke would  
make arrangements to have  
them caught later on -  
It is impossible to name  
an exact date, as the  
Park is large & the deer  
very shy. The Keeper  
has to wait for his chance,  
he might catch them  
the first try, but probably  
not for some time after.  
If possible Pitt Rivers will  
send the address of the  
Station if should be sent  
to, if possible be sent  
by rail when caught.
