Everybody wishes to buy

The Camps here will

camps will have the

Mr. Pope

I have now been
a month in the country, &
and I can tell pretty well
if I shall like it.

The camps are very big
some 12 leagues sq. & others
five & four. This is a very
small one, only a league &
a half. so of course there is
not so much work as you get
in the big places, but we
get plenty of tools whatever

parting cattle, for setting
fire to the old camp grass
carpentry work, blacksmithing
pruning peach trees etc.
we get up at sunrise
& have coffee & breakfast
at 12 o'clock, dinner at
seven & bed at nine.

Mangut says it would be
better if I intend to stay
in the country to buy a
camp up north in the
great Chaco. At once,
as land is going up in
value every year. it would be
no good buying less

than three leagues up
as I should be like Mangut
lodged in with a large family
& not able to get any more
as the land round here has
risen tremendously in value,
since the proposed railway.
it will cut this camp
at the corner & Mangut
will have a station on
his land. he will then
be able to get his maize
& other stuff to Rosario.
in a very short time, at
present he has to cart
them with oxen

very peculiar things, these

contribution to the Bushman
Museum, cost about
20 dollars. There were
several cloths belonging
to the saddle -

Of course that is a wicked
way of doing it. I of course
shall have to work the land

myself. its very beautiful

I am learning the language

nothing can be done.

I can't visit the Chaco
