

will have more weight  
with her.

I expect to leave home  
about Friday next. If  
I find anything more worthy  
at Rapallo. I will let  
you know.

Please remember me  
very kindly to Mrs Pitt-Rivers

I believe me

Yours very truly

J. Prescott-Pryor

WHATCOMBE,  
BLANDFORD.

Dear P. Mrs Pitt Rivers  
My dear General Pitt Rivers

The more I consider  
the question of the site  
for the frame memorial  
the more I am inclined  
to hope that you are  
its being placed where  
himself was personally  
identified. Then comes the  
question has it or (as  
a monument to  
(the place of his birth) I  
am inclined to think the latter  
is it has in the center of  
the Val of Weydon to  
include all the ground  
of his birth & leaving of

about he made such good  
use & his life time.  
I think with the aid  
of Doctor Smart. Mr  
Saunders and the  
Ordinary being officers  
we shall be able to  
make a good explanation  
of the nearly discovered  
Roman road. I think I  
let you in my last  
letter. All the fragments  
which have come to hand  
point unexceptionally towards  
Bady as the true head &  
north on the other.  
Smart is a letter I received

This morning I have  
had great interest in the  
discussions and agree  
with you that if Bady  
be not vindicated in  
it is unnecessary that  
such an important  
station should be left  
out of Antonine Itinerary.  
I am delighted to hear  
of your continued success  
at the new Village -  
Do the skeletons evidence the  
violent death of Woodcut?  
Shall I write to Lord Alington  
about Insulae Cuth?  
Thank a letter for "The (mummy)"
