Dear Sir

You were kind enough in
November last to send me a
copy of your new edition of
Chapin's Cranborne Chase, 1818
and having recently come across
a copy of "A History of the
Forest as Chase known by the
name of Cranborne Chase" by
William Best 1816 I venture
to write and ask you if you
could give me any information

about the latter book, as it
seems curious that two different
writers should have, so close
together, written about the
Chaco - It seems to go rather
deeper into the history of the Chaco
than the later book (Chapuis)

Truani Si

Yours faithfully

Carl H. Sp. Perceval
