

of two of the finest tumuli  
bell shaped barrows in the  
New Forest situated on the  
west of Holbury Parkin,  
apparently for the easier  
supply of material for the  
formation of a butt for  
rifle practice and that  
this Club earnestly request  
the Deputy Keeper to use  
his influence, and if  
necessary his authority, to  
preserve all the remains  
of prehistoric man which  
~~exist~~ within the boundaries  
of the Forest.

HAMPSHIRE FIELD CLUB.

L311

HON. SECRETARY'S  
ADDRESS:

5, Sussex Place,

Southampton,

28 May 1887

Sir, I am desired to  
transmit to you a copy of  
a resolution passed by  
the Hampshire Field Club  
yesterday at Alresford -  
I may add that the  
act of sacrilege referred  
to (for I can call it  
nothing less) was discovered  
by Mr. Shore and myself

last Monday. and that  
the two barrows in  
question formed part of  
a most interesting group  
of seven. The rings  
round those destroyed  
still remain and there  
are two others of the  
same character still  
intact. which prove there  
were no finer specimens  
of tumuli of the bronze

age anywhere in England.  
Your Obedt Servant  
W<sup>m</sup> Dale

General Pitt Rivers F.R.S.

Moved by the Revd J.  
Woodhouse M.A.

Seconded by Mr. W. Whitaker  
F.R.S. F.G.S. &c.

"That the attention of  
the Hon<sup>ble</sup> G. Lascelles  
Deputy Keeper of the New  
Forest be called to the  
recent unnecessary destruction
