

Sussex

words of information or explanation such as will enable us to see the things tomorrow for myself in answer to the enquiries. Sh: I may then have addressed to me.

I don't ask for the reasons of yr. views or conclusions, but accepting you as an authority & I quite believe the highest authority I can rely on I shall feel greatly obliged if you will ever to my rescue & at the same time be found the Sussex Archaeological Society. Again

affectionately
Yours truly
H. Foster.
I have been very busy
myself & have the
to be done
for the 1st of
June 1887

You will pardon me I must hope for writing to you - I hope that Rectory is what I think you would call a 'Hill fort' but sh: per by the way of the ground. The Sussex Archaeological Society are joining this year & hold their Annual

meeting in Selby on the
11th of August will
beset this demand & make
I dare say a great many
enquiries about it, enquiries
tho: will vainly be addressed
to me.

But they will make their
enquiries in vain unless
I get me information
than I was possess. Indeed
I was possess little or none.
I am told that you read
a paper or papers about
'the Hill Forts of Sussex'

in the year 1868 before
the Society of Antiquaries
& I have you included
the Selby demand among
them.

Under these circumstances
(1) I regard you as an
authority touching this
point of interest in
the Parish & you are
the only authority of
whom I have any cognisance
(2) I have perhaps ~~written~~ an
apology for venturing
to trouble for some years
