My dear Sir

Allow me to thank
you very heartily for the
beautiful volume on your
Excavations wh. I received
yesterday. It will not only
be very useful, but a pleasant
memorial of your kindness
& hospitality when we
visited Rushmore.

I was much interested by seeing
the Coral necklace in your
collection at Farnham, for I

once procured a very similar
one from Umrit (Martellus) on
the Phœnician coast. It is
certain that the other recorded
specimens found in England
should have been found in
Cornwall, what is supposed to
have been under Phœnician
influence. I am

Very faithfully Yours
Greville. J. Chester.
