

L394

WHATCOMBE,
BLANDFORD.

Oct. 11. 1887

My dear General Pitt Rivers

I will at once
act upon your suggestion
& set all our Club
& lay behind it getting
the County ancient
monuments tabulated.

In fact I have written
to the Secretary about it
and I hope something
will be brought forward
in the way of a list
at our Christmas meeting

I am sitting on my
bed with the Clapham
bed & have got 3
fine bones & a splendid
model of Clapham
quadrangular which
has not been found in
the Trent bed of the
Linton (Cromer).

I expect to hear what
you say about your future

I am almost in despair
this is the worst year
ever known. The Farm
who could just keep the
heads above water are
now starved. I
expect to be submerged
next year. May I can
take over the improve-
ment. The Post will be
closed so I must find
news

Yours very truly
J. C. Mansel-Pleydell
