Stainforth Settle Yorkshire

Dear General

Ever since we met you at the Brit Association
at Manchester, and you so kindly described to us
the treasures of the Victoria Cave, Agner and I have
been going about with our eyes in the earth all
day long, poking, digging, grubbing, excited by
sudden hopes of arrowheads, reasoning in the

ST GEORGE'S PLACE

most earnest way as to where they ought to be,
yet we have not secured one bone or one implement
that we dare call true, none to compare with those
from the Victorian Cave.

Will you be so kind as to help our ignorance,
and tell us if you have any suspicions of
another fruitful cave, or cliff, or ground, near
here?

I have no liking for the caves

of Ingleborough, they are too cold for any inhabitants
to take to, not even a bear would like them.

But we have a longing to dig out Kenegant!

Supposing you were here, like us, eager to trace
the old inhabitants. Where would you search?

With our kindest regards to Mrs Pitt Rivers

Believe me sincerely yours

Henrietta G. Baden-Powell
