Dear Gen Pitt Rivers,

Col. Munro Smith R

Director of the Museum of
Science & Art at Edinburgh
asks me for anything of
yours of the nature of
Catalogue beyond Parts 1 & 2.

If you can spare him
a copy of your lecture
on Primitive Warfare
this would be useful
to him.

Steps are being taken
as to the carrying on of
Balfour's work in your
Museum. I am sorry

to have accounts of Mosley
which give a less favourable
impression of his condition
of health. The doctors have
forbidden him to think
of resuming work at the
beginning of the year. It is
stated that he cannot get
natural sleep.

Yours very much
Edward B Tylor
