LEE HURST,
SALISBURY.

20 Dec 1887

Dear Sir

Possibly you may have heard something of the desire of the Committee of the Salisbury & So. Wilts & Blackmore Museum to make the collections under their charge more popular in this City & neighbourhood.

With this object a few lectures were given last winter. The interest thus excited was so encouraging that it is now deemed to publish a regular course of

lectures, to be given after Christmas, treating as far as may be of subjects illustrated in the Museum.

The sub-Committee approached to carry out the arrangements have desired me to ask whether you will be so kind as to take one of the evenings. We should be very grateful to you if you could see your way to do this.

The following evenings are at present free for your choice, or if necessary we would endeavour to arrange for some other Monday night.

1 Feb 15 Feb 14 March.

By this post I am sending you a report of our opening meeting held last month, as the inaugural address of the Rev D Bourne seems to me to give very clearly the aims of the Committee in this movement.

Yours faithfully
Edward F. Newman.
