

2 Russell Chambers

Bury Street, N.C. May 7. 1888.

Dear General Pitt Rivers

I write to tell you
that according to promise
I carefully examined the
side of the small Mady
near the Tombs you
described at Kourouk
but failed to discover
any flint implements
in situ.

This winter, however, I
obtained two regularly
formed "celts" or implements

2487

of this form, found
with mummies at
Koumeh - I had never
known such objects to occur
before in Egyptian Tombs.

I don't know whether
you want to acquire any
of the curious & beautiful
Roman & early Christian
Textiles - if so, I could
show you a large & fine
collection which I made
myself at Echmim in
Upper Egypt. Believe

me to be

Sincerely yours

Greville J. Chester.
