

2509

WHATCOMBE,
BLANDFORD.
—AND TELEGRAPH—

White Hart
Manuscript
July 13. 1881

My dear General Pitt Rivers
Having three spare
days I am taking an
expedition through the
Western side of the (mountain)
and hope to measure &
look in upon Boston Pond;
I look. My object now is
writing to you in haste. In
what class of wild cattle
I consider to be the descendants
of Bos longifrons. I think
you told me when I had the
pleasure of the last chat
with you that it is the smallest
breed. At our next Field Club
meeting Mr. Hatcher the County
Surgeon will exhibit a skull

WHITCOMBE

BLANDFORD

of Mrs Longman and wishes
me to read a paper as it
it will be interesting to be
able to state that you
consider it has not been
out but is still in my
possession.

I long to hear more of
Brother Lyke

With very kind regards to
Mr Pitt Rivers & Mrs

Remains

Yours truly

H. Mansel Blackford
