13th September, 1888.

SIR,

“THE FLOWERING PLANTS OF WILTS,” by the Rev. T. A. Preston, is now ready for issue to the Members of the above Society. As the carriage of this work—which is somewhat bulky—to all the Members of this Society would form a considerable item of expense, it has been decided to ask each Member to pay for the carriage of his copy. Be good enough, therefore, to let me know without delay whether I shall send your copy by Parcels Post, or whether you will call for it *at my Office*, as above. If you prefer the former course, kindly enclose 6*d.* for postage.

I would mention with regard to this work that the Committee has decided to strictly adhere to the clause in Bye-law No. 8, with reference to arrears of Subscriptions; and that accordingly no copy will be sent to any Member whose Subscription is in arrear.

Yours obediently,

WILLIAM NOTT,

*Financial Secretary.*
