Sir

In reply to your enquiry about the "Court-Cup"<sup>di</sup>:

I beg to say that the price of the one in the warehouse (ground-floor) is  $\pounds$  14.0.0

of the one in the shop, with its' back to the window

12 0.0, and of the other

16.00.

I am sorry to say, that I have not been able to find the photographs wh: my daughter mentioned.

should I do so, they shall be  
forwarded. I am afraid  
however that there was only  
one of them wh. was of an  
unsold C<sup>t</sup>: Cup<sup>d</sup>:

I should say that all  
I have are genuinely old  
that is to say are not "made  
up" Cup<sup>d</sup>.

They have been, where  
needed, carefully restored  
and as little done <sup>to them</sup> as possible

in the case of the one you remarked, as  
having new columns. They  
are exact copies of the old ones  
which were very much split  
and cut about, and I have  
kept them, in order that a

purchase may see how  
closely they have been copied.

Regretting that I was not  
at home when you honoured  
me with your call:

I am Sir

Yours Obediently

Wm. Ogden
