

I should be obliged if
you would kindly return
the enclosures when no longer
required.

I am, Sir
yours obediently
W. W. Faulder

Ellerslie
Cheetham Hill
Manchester

11th April, 1891.

General Pitt-Rivers,
Sir

Having seen your
advertisement for an assistant,
I beg to apply for the post.

I have for many
years been an enthusiastic col-
lector and student of antiquities,
especially of the history of weapons
and armour, of which subject
I have a thorough and critical
knowledge. I think my know-
ledge of arithmetic would be

Sufficient to meet your requirements and, although not an artist, I am in the habit of making for my own purposes accurate drawings of swords and armour and when at an engineering school was taught mechanical drawing. I have no technical knowledge of surveying but hope that my general knowledge of antiquities may be sufficient to make me of use to you without that qualification.

I have the honour of inclosing copies of testimonials which I have received and as specimens of my work send the cata-

logue of an Exhibition which I arranged in 1881 and the Guide to the Armouries at the Royal Jubilee Exhibition, Liverpool, which I wrote in great haste at a few hours notice. I also inclose photographs of myself and of portions of my collection.

Should you think my application worthy of consideration, I should be obliged if you would inform me as to what terms you propose.

I should be glad to give you any further particulars you might require.

2888

*The doing of good work elevates the worker's character more than any
amount of pay can profit the slovenly workman.*
