

It all wd have to be
brought in the usual
way.

To carry out the whole
as shown on the drawings
with the consulting house
& retiring rooms complete
wd cost approximately
£3,070. which is £500
cheaper than the last
estimate. In this sum
there is £100 allowed for
Hoboken apparatus. 3/-

19, BUCKINGHAM STREET,

ADELPHI, W. C.

1679

25th June 1891

Dear General Pitt Rivers -

I have not yet
heard if we can manage
to get the bricks made
cheaper on the sale &
what saving it wd
effect. I therefore have
had to put an estimate
on the assumption that
the bricks for the farmer

You had a flat ceiling with
ceiling lights it wd work
an arch $\neq 40$. What is
already in is a simple
skylight the whole length
& the sides of the sloping roof
plastered.

The porch 3 made the
full width of hall as 3
see it wd be better from
every point.

3f for cube the building

You will find that it
contains 30 rods of brickwork
or 1200000 bricks - 3f
we are successful about
the brick making the saving
on cartage shd be considerable.

Your very truly
Francis M. W. Allen
