August 19. 91.

My dear Franks

I enclose a wood cut  
you may see the Mini I  
found in the ground with Roman  
kitchen & remains close to a  
Roman British Hypocaust  
at Woodgate. It has all  
the appearance of being an  
Antiquity but I do not think  
I have ever seen any thing

of the kind. You will  
reserve the socket to  
which the handle must  
have been attached. I do  
not remember ever having  
seen a modern one like it.  
It was within a foot of the  
surface so there is nothing  
in its base or to prove that  
it is very old. Can you throw  
any light upon it.

Yours very truly

A. B. Davis
