BRITISH ASSOCIATION.

CARDIFF, 27 Aug. 1891.

Dear General Pitt Rivers,

Your letter has just been forwarded to me, but as I do not expect to be back at the Museum until about Sep. 10, I hope you will not object to the delay in returning the Wandylke pottery until then. As soon as I get back I will send the box to you.

Pray do not for a moment
think that I had altogether
reflected the matter. On the
contrary I discussed it with several
geological friends, and we came
to the conclusion that the
investigation would be difficult
and costly, since a large number
of microscopic slides would have
to be prepared, and it seemed
very doubtful whether after all
any real good would be gained.

Yours truly,
J. W. Rudlin
