

Evening,

I am glad you like the  
Heisenbach "process"  
bc of the Daily Graphic  
are great admirers of  
it, & some of our artists  
who have had their own  
work reproduced by it  
say it always seems to  
convey their own ideas  
which seem often to be  
lost in other processes.  
I hope you are well, &

Dear General Pitt Rivers,  
Doubtless you see  
the Times regularly, but  
in case you care to  
have an extra copy of  
today's paper containing  
the account I have  
written of your Museum

20, I am sending one  
to you. When the discussion  
first arose upon County  
Museums, I wrote to  
Mr. Robert Bell the  
Manager, & asked him  
if he wd like an account  
of an actually existent  
one, outlining in my  
note your own Institution.  
He answered that he  
shd be extremely glad

to have it, & accordingly  
I sent it to him. I hope  
you will consider that at  
least it <sup>gives</sup> an accurate  
idea of Farnham, & I  
certainly thought in the  
present correspondence it  
wd have a particularly  
à propos interest. Both  
the St James's Gazette  
& the Globe comment  
upon the description  
of the place this

2707

that the present fine  
weather is bringing large  
gatherings to Farnham &  
the Larmer Tree. These  
last three fine days are  
giving them all great  
joy at the Naval  
Exhibition, where I was  
last night for the splendid  
Sham fight they are  
giving once a week, &  
Sir William Dowell  
told me these days had  
brought the highest

Three = days attendance  
they had had since it was  
opened.

With kind remembrances  
to Mrs Pitt Rivers

Believe me

Yours very truly  
J. F. Billington
