Dear Gen. Pitt Rivers.

We should want 510  
copies of the Wansdyke Plate  
for the magazine - Please  
tell Stanford to send them  
to Bull  
Printer  
Berkeleys.

When you know what the cost

thereof is with you please  
let me know and I will  
send a cheque -

As to Kings' Volume's House  
I have been looking through your  
Volume - and I think that  
one of the plates in it would  
look very well reduced  
to the size of our magazine  
by photolithography -  
e.g. Plate VII. & XIII?  
The Ground plan in Plate III

might be given full size if  
the rest of the plate were cut out.  
You have loose copies of these  
plates I would easily get them  
done -

What do you think of this suggestion?

Yours truly  
Edtt Goddard.
