11. December 1891

Dear General Pitt-Rivers

If you don't think the diagrams necessary in the Journal, perhaps the paper will do just as well without them. You will find all the arrangements you required made. Mr. Wheatley quite understood the arrangement as explained to him.

I understand you will bring the

13 diagrams in question with
you.

Yours faithfully,

H. J. Wood
Secretary

Do,

Genl Pitt. Rivers

"Rushmore"

Salisbury

I have just received a note from
Mr Flower, saying that he is about to
leave London at once, so I am asking
Mr Selator, to preside.
