

DIRECTEUR DE LA RÉDACTION

D^r PAUL TOPINARD

105, rue de Rennes

Paris, le 28 Febr 1883

To Major Gen Pitt Rivers

Sir

I did not reply immediately to your letter because I took some information before.

Chautau's symbols for Archaeological maps prepared at the International Congress of Stockholm 1874 are now adopted in France, Sweden, Italy and Hungary. They have lately been adopted in particular by the Commission de Monuments Megalithiques, at the Ministère de l'Instruction publique.

The only symbols used may be, by other are those of the Commission de Gauls and a

few modification used by Mr
Haug in the same Comonificer.
You will find all those symbols
in the Dictionnaire Archéologique
de la Gaule and in the Différents
Maps annexed to it.

Those information, I had
from Chauts and Haug
themselves.

I remain Sir at your
entire & spontaneous service.

Believe me yours

J. D. Topinard

Secrétaire Général Soc. Anthr.
