Dear Sir,

I am unable to find out where those wooden locks came from today but may perhaps be able to do so in the course of a week or so. I hope to be able to go up & see your collection next week & will then see if we could spare any of our locks, so as to

Complete your collection but I have so much pressing work on just now that I am afraid I cannot look into the matter before then.

I enclose an old pamphlet that may be of some use to you.

I am, Dear Sir,  
Yours faithfully,  
John C. Chubb
