

Carlyle Studios. 298. King's Rd.
Chelsea.

1885

May 14 - 92.

To General Pitt Rivers -

Sir -

Hearing you have been
investigating the Wiltshire
earth works - I beg to ask
whether you are aware
of a skeleton having been
found in Hampton
Down - near Bath -
just by the Wansdyke.

is front of the presents
Volunteer Butte.

The man in charge of the
butte - has the skeleton
in a small shed hardly
& would be very glad to
have it seen by someone
understanding the subject.

With the bones - he had
some pieces of pottery -
& queer-shaped bits of
bone - he also found

in the neighborhood some wooden
nails - which he imagines to have been
broken into the ground in making
the butte -

Apologizing for troubling you -

Yours truly

G. Haydon
