UPPER MERRION STREET.
DUBLIN.

(1876)

31st May. 1892

Dear Sir John Lubbock.

There is a great desire in this country to have a careful examination made of the mound on the Hill of Tara. & that such investigation should be made at the time of the Tercentenary meeting in College.

We have sufficient funds for exploration but difficulties may arise owing to the dislike of the inhabitants to touch such structures - but this I hope to be able to get over. I send

you a portion of the Ordnance map with the mounds indicated & would have sent it direct to General Pitt Rivers but I do not know his address. Perhaps you will be so good as to forward it to him & say if he will give me his advice as to the best position for an exploration bearing in mind the compass points I shall esteem it a favour

I was very glad to hear that our attorney
General

contemplated bringing in
a short bill. So mandas
the Bill drafted in the
Irish office informs me
Yours very faithfully
J. H. Deane

Mr Right Hon^{ble}
Sir John Lubbock

W.

1 June 92

My dear General

The enclosed speaks for
itself.

I am sorry to hear you have
been so unwell, but hope you
will soon be out again.

We are starting tomorrow
for a run to the Channel
Islands. I am

I am
Yours very sincerely
L^d Gen Pitt Rivers
J. M. Lubbock
