

1895

July 8 1895

Giffie Vicarage,

Wootton Bassett, Wilts.

Dear General Pitt Rivers.

I enclose a Photo print of a
Roman pavement of "batt" found
at Box. In 1881 but not found
and discovered not described
anywhere. It was taken up - in
1881 and is now a new, (and
a sale) at a private stone
in Bratt near the hidden station.
It is well restored and polished
condition. Can you help me

Whether this semi-circular depression
which as you see is both haved
and lined with terraces is likely to
have been a bat - or a fountain
under 3/4 of a inch and 3/4 of a cent.
like the loved marble ones at
Pompeii? - there was a lead
water pipe lead away from one corner
- or what? - There seems to have
been a market similar thing found
at Fawley and I believe I believe
in the gentleman's magazine - p
July. 1823. p 113. Pl II.

I believe I will be out
for the month of your letter

I hope this. Had I known
that you were able to attend
to the matter in April I could
have pointed it in the last
number of the magazine -

So you mean to make a
present of the bag which
is to accompany your papers?
If so I will enclose a card
it in the magazine -

I am
Yours faithfully
Ed. H. Goddard.
