Dear General Pitt Rivers

Normanby Allen has
asked me to write a notice
of the Wansdyke & Bokerly Dyke
diggings for the Arch Camb
journal. Your book has so
greatly interested me I should
much like to see the actual
work done and as next Monday
I am to be at Bath I venture
to ask if you can put me in
the way of seeing your excavations.
You will I fear have forgotten
me but we met some years
ago at Tenby when our late
friend Professor Hotten was
digging out my cave at the
Little Hoyle.

I am dear General Pitt Rivers
Yours very faithfully
