

I don't know whether you wd.  
care to undertake the journey -  
but if so. I should be desirous  
to put you up at the yacht  
squadron here for a night  
or two, if it suited you, &  
we could reach the place  
under an hour - It wd  
be much interesting to hear  
y<sup>r</sup>. views on this matter -  
At any rate, w<sup>l</sup>d you read  
the pamphlet - It w<sup>l</sup>d

Sept. 24.

1892.

Dear General Pitt-Rivers

I have been asked to  
send you a pamphlet called  
"Phonix in Fresh water" by  
a Mr. Robert Walker.

He has been making some  
rather curious excavations  
near Toland Bay & Fresh-  
water. He has found

2 curious structures. which  
he imagines to be Phoenician  
remains, used for  
the purposes of cremation.

I have seen them & they certainly  
are very curious. The inside  
of each, is flayed in a kind  
of brick manner - The  
floor contains a kind of

whitish paste. It he declares  
to be, bone remains - Some  
people have thought them to be  
Kilns. but from what I can  
see of them, they seem more  
likely to have been such he  
thinks them than, that.

He is a tremendous ratter  
- ask of course -

He is very anxious that you  
should see these remains.

RHS Castle,  
Coxes.

But you a better idea, of the  
subject. than I can in a  
short letter...

Believe me -

Dear General Pitt Rivers

Yr. very truly,

Montagu Sneyd.
