April 13. 1883,

Dear Sir,

As it is nearly time to  
determine our places of Meeting  
for this year will you excuse  
my troubling you to ask if you  
purpose to clean out the fern  
Giant when it may be convenient  
for you to do so  
I think the Giant & other matters  
about Cerne ought to make a

a good day & shall be  
proud to be favoured with  
your views upon the subject,

Yours, truly yours  
James Rankin
