Dear General Pitt Rivers

Thank you for your letter. I of course saw you had written your former letter under a misapprehension, but as you will see from the original (which I take the liberty of enclosing) it cannot well be altered in its present form. So as to be available for the

purpose for which you so
kindly wrote it. I do not
like to trouble you further
as I know you are a
busy man, but I should
all the same greatly value
a few words of commendation
from you which I could
circulate among the
Electors to the Osney
Professorship.

Yours very truly
W H S John Hope
