Sir

Yours to hand this morning. They to thank you for thinking of me.

I am very busy just now at Messrs Waterlows but I might be able to make time to make any drawings that the gentleman you name wishes done.

Of course I cannot

give any definite answer
until I get a few
particulars as to what
is required.

I have ^{just} completed
four plates for the
Anthrop. Journal, of
flint implements for
a paper by Mr. Allen Brown.

This work I obtained
thru Mr. Bloxam, who
has kindly promised to
put this work in my
way if opportunity offers.
I should be glad

to hear more particulars
as to the work you want.

I beg to remain, Sir
Yours obediently
W.S. Tomlin
