

Sturminster Newton,

Blandford 10th April 1884

Dear General Pitt-Rivers,

In November last Mr. Sheel told me in course of conversation that you could have the shooting over his bit of land at Standley at any time you may wish & on my informing you of it you said you did not attach any importance to it at present but if you hereafter it was wanted he

should be communicated with - I have
now written to him on the subject
& no doubt shall be able to easily
manage the matter on favorable terms.

I forgot to tell you on my way
to Farnham no day or two ago
I saw Mr Rogers at Chettle & he
told me a large trap (he thought a
brown trap) had been dug up
near him & if you liked to have it
he should be glad to send it to
the Museum at Farnham, I did

not see it as he had not it at
his home - His address

is Mr Robert Rogers

Chettle

Blindford

I remain

Yours very obedt Servant

Alfred
