

Sturminster Newton,

Blandford 29th April 1884

Dear General Pitt-Rivers,

I yesterday met Mr Stodge
 as to the Farm at the bottom
 I made him the proposition as
 to putting part of it down to
 I suppose, he asked for time to
 consider the matter when we are
 to meet again -

Most certainly the Bm force

is the cheapest in the long run
as we have often talked over
I as you contemplate having so
much it would be better to have
the 2,000 yards in the Lollard
Valley of the Bm, if you use
all wire it will be a heavy
expense all at one time to renew
it - I will ascertain at once at
what price I can get it -

I remain
Yours very obedt servant
Wm. B. B. B.
