WHATCOMBE,
BLANDFORD.
—AND TELEGRAPH—

Oct 23. 1894

My dear General Pitt Rivers

I am returned
from Bath and rather
disappointed for after a
month's hard work I
caught cold or rather a
chill which seeded all
the good and kept me
to the house until now
I fear I shall never be
good up working Combe
Ditch until the Spring
which is a still further
disappointing event but
more work can be done
when the days are
longer than now

WHATCOMBE

BLANDFORD

I hope you are taking
care of yourself & recovering
from your fit the trials
of winter: I am passing
through the last sheets
of the Zoology of Dorset
to accompany the
flora of Dorset which
I now think may
be out next month
With our very kind
regards to Mrs Pitt Rivers

I remain

Your most truly
affectionate
W. Marshall
