

I believe that most archaeologists of this country are of the opinion that my monograph on copper has settled the question of the origin of the copper of the mounds.

Thanking you again I am

Very sincerely yours

Charles B. Moore

Lieutenant General Pitt Rivers,
Dear Sir,

Your of January 12th has been forwarded me here and I note with pleasure that you have directed to be sent me copies of your well known works. Please accept my warm thanks therefor.

I am at present engaged on mound work in a region not easily reached by the mails and where valuable books, if sent, would be ill-treated or stolen. I shall therefore have to deprive myself of the pleasure of seeing your books until my return to Philadelphia.
