It goes a bit better  
Dear Sir

How about inspecting the  
two pits where the flint implements  
were found? Could you come  
to Parkstone by the 10.19 from Blandford  
next Tuesday or Wednesday would  
suit me. Dr. Wallace whose house  
almost adjoins Parkstone Station wd  
like to come also. I would have  
a carriage at station & you  
could return to Blandford by either  
the 2.18 or better 5.38 - I can  
manage any day any week almost  
but preferably not Monday or Thursday

Yours  
W. Carter
